

Commercial Cards

Our Nevada plant manufactures all general-purpose plastic cards and has been designed from the ground up to be the most efficient plant in the world for high volume, low priced cards that do not require Visa/MasterCard security. It is also the only ISO 9001:2000 registered plant serving the general-purpose plastic card market. This differentiates us from other manufacturers who make both types of cards in the same plant. By separating the two types of cards, we are able to efficiently provide the highest level of security, quality, and peace of mind for both our secured financial and general-purpose customers.

Our team can manage every step of your project. CPI offers a vast portfolio of unique card designs, styles, and shapes at an economical price. We can also provide full-service distribution of your cards through our service bureau, and efficiently handle the manufacturing, personalization, affixing, matching, and fulfillment for you.

CPI can produce virtually any card for any project. Some of the cards we create include:

Membership cards
Hotel keys
Transit cards
Direct Marketing cards
Insurance cards
Custom promotional cards

Loyalty cards
Frequent flyer cards
Access cards
Library cards
Fuel service cards

Gift cards
Gaming cards
Identification cards
Holograms
ATM cards

Innovative Products

CPI's gift card production capabilities are some of the most progressive in the world.

- We developed the first biodegradable PVC for plastic cards.
- Our product line includes translucent, full-face foil, textured, and scented cards. We can manufacturer unique card shapes, glow-in-the-dark designs, and thermochromic cards.
- We offer contactless cards for transit authorities, gift cards, and access control cards.
- CPI was the first manufacturer to provide translucent cards in the gift card market.

Design Services

We are proud to offer three different design services to help you create the card that best illustrates your brand image to your customers, all for absolutely no charge:

Card Designs: We offer hundreds of pre-designed card background images

Card Designer: Using our online design tool, you can design your own card.

Custom Design Services: Our design professionals can create your custom card.
